BENEFITS OF COMMUNITY LIVING

One of the greatest benefits of choosing Monroe Manor is our commitment to ensuring residents don't feel isolated or lonely. Our residents are able to live with old and new friends in a socially exposed environment. Residents can enjoy the comfort of having healthy, home cooked meals or a kitchen of their own. Keeping in touch with family and friends through tools like e-mail and Skype are other benefits residents enjoy.

MAKING THE RIGHT CHOICE

We at Monroe Manor understand the concern and uncertainty an individual may have when moving from home. Not only can it be difficult for the individual, but for the family members as well.

Whether you are personally considering moving into an apartment or assisted living, or are a family member helping a loved one make a life changing decision, we are here to listen and help find the right solution for you and your family. Moving into an apartment or assisted living situation is a significant life change, and we work to make it a positive one for our residents.

COMFORT AND SAFETY

Area clergy make regular visits to Monroe Manor, providing social and spiritual comfort. A physical therapy room allows residents to choose their exercise schedule or head down the hall to the 1950's themed game room where residents and their families can interact playing pool, darts or Ninetendo Wii.

Safety is a high priority at Monroe Manor. We are staffed 24-hours a day and make regular checks on residents. We are a family owned, CBRF state Certified and a state monitored assisted living facility. We ensure compassionate and personalized care.
